**Re: Letter of Commitment for CANARIE's Research Data Management Program**

To whom it may concern,

I am writing to express my commitment to the CANARIE's Research Data Management call for the application called "CanDIG National Genomic Data Service: CHORD".

The CANARIE RDM call for National Data Services is extremely timely and important, and both I and the CanDIG project as a whole look forward to participating through the CHORD project. As technical lead for the CanDIG project, I am committing both my own development effort, and to adapting the development trajectory of CanDIG, to meet the needs of the CHORD project in providing a national data service for privacy-sensitive genomics and related health data.

I wish the best to this application and the program as a whole, and look forward to the opportunity to participate. Should you require any further information, please do not hesitate to contact me.

Sincerely,

Jonathan Dursi  
Senior Research Associate, CanDIG Technical Lead
