Collaboration letter for the CANARIE Research Data Management Software competition

Dear Guillaume,

As discussed previously, I want to confirm my interest as a collaborator of your Canadian Health Omics Repository, Distributed (CHORD) project. I am very enthusiast about the possibility of using the portal of the Genetics and genomics Analysis Platform (GenAP) project that we are developing as an interface to access the CHORD data. I am looking forward continuing our ongoing collaboration.

Sincerely,

Dr. Pierre-Étienne Jacques
